Program: Kathy Taylor of the Cincinnati Public Library (Cheviot Branch) presented information on the upcoming library issue on the Nov. ballot. She presented various statistics on why this levy is needed. Specifically Hamilton County Public Library receives no local funding and their state budget has been cut. Usage has grown over the past ten years and the Public Library is looking at a \$14 million deficit for next year. The cost to the homeowner would be \$30 per \$100 of value of an individual's home. A very worthwhile cause in a very tough economy.
