**The Cincinnati Chamber of Commerce
Executive Director of Agenda 360**

Agenda 360 was designed to transform the area by focusing on three key components: Talent, Jobs, and Economic Opportunity. The goal is to have the region work in unison to achieve these goals thereby setting aside their interest for the good of the region. The term “no poaching” was brought up. This calls for businesses to refrain from stealing businesses from other areas within the region. It has been proposed that Kentucky be included in this lofty goal.
