### **Program**      Dave Holt introduces speaker:

President and CEO of Mercy Western Hills Campus – Patrick Kowalski

- We were updated on the current status of the hospital. Received a distinguished hospital award for patient safety. Voted top 100% best value hospital. And several other awards and current achievements. Mr. Kowalski updated us on the new proposed project off North Bend and Boomer. Going through zoning and land use issues now and if all goes as planned may be ready to open sometime in 2014. Discussed need for construction of new 260 bed hospital. Expanded vision of serving the Western side of our community and what will happen to existing campuses. Open discussion of needs, safety issues, and traffic concerns.
